

Calling all Middle and High School Science Teachers!

# CENTERING DATA in SCIENCE LEARNING DATA STREAMS WORKSHOP

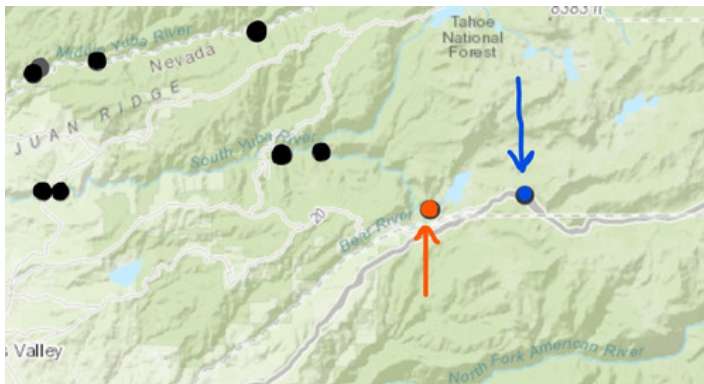

**Saturday, May 18, 2024**  
**9:00 - 11:30 A.M.**

Join leaders from the California Science Project and the South Yuba River Citizens League for an **online workshop** exploring watershed phenomena and sample datasets available for students to investigate connections to NGSS standards, climate science, and their local environment.

**Space is limited!**

**REGISTER  
TODAY!**

- Receive a **\$150 stipend** for participating in the 2 and 1/2 hour zoom-based workshop.
- Learn how to empower your students to ask questions and engage in real investigations by analyzing regional datasets.
- Explore the import of centering the *process* of science in your classroom.
- Connect with participatory science project opportunities that can enhance curricula.
- Discuss challenges in using data in your classroom with workshop participants.
- Apply the workshop approaches to YOUR region and students.

**Applications DUE May 3rd.**
